

AUTOMATIC VIAL/BOTTLE WASHING MACHINE

MassWash Series

Durva MassWash Series for Vial or Bottle Washing for Pharmaceutical industries. MassWash Series Machine is Tunnel type vial washing machine is cGMP Compliance Design for wash internal and external surface of vials in intermittent linear motion. It can be Customized as per requirement.

Machine have a Vial Holding Pocket for Hold a Vial. It has Suitable for Multi Wash Like WFI Water wash, Purified Water Wash, Recycle Water Wash & for Vial Drying Purpose Facilities by Special Designed Air Nozzle for internal & External Vial Surface Drying.

Silent Features of Machine :

- Compact, Rigid Performative & cGMP Model.
- Machine Master Structure is Made from SS Material.
- All Product Contact Parts are made from SS 316 L material.
- Special External jet Nozzles made from SS 316 L Materials.

Suitable for

- Specially Designed Vial Holding Pocket for Hold a Vial/Bottle.
- Speed is variable by AC Drive which is Synchronized with PLC & Variable by HMI/IPC.

Specification :

Model :	DLVWM 60	DLVWM 120	DLVWM 150	DLVWM 240	DLVWM 300	DLVWM 400
Speed of Machine :	60 Vial / Minute	120 Vial / Minute	150 Vial / Minute	240 Vial / Minute	300 Vial / Minute	400 Vial / Minute
Pocket Per Row :	5 Pockets			10 Pockets		
Power Required :	5 HP, 440 V, 3 Phase, 50Hz.					
Water Consumption :	100 LPM to 400 LPM					
Air Require :	10 to 35 CFM					
Machine Weight :	1200 Kg.	1350 Kg.	1600 Kg.	1700 Kg.	1860 Kg.	1950 Kg.
